

Exposure Group No. 1

The Church District of Altholstein invites you to focus on Justice for the Marginalised

The church district Altholstein comprises of 53 Parishes. The parishes are the centers for church life. They are “church on the spot” in rural as well as in urban areas. They proclaim the Gospel and accompany the people in their specific region. They are all different. Each parish is having its own profile. There are City-Churches like St. Nikolai in Kiel and like St. Petrus Church in Henstedt-Ulzburg. Therefore each church and each parish is like home for the people who live there. The church district has been named Altholstein when the two church former districts Kiel and Neumünster merged in 2009.

The second line of the church’s ministries in the district are the specialized ministries. They are the Youth Department, Women Department, Kindergarden Department, Evangelical Counselling Department like also the Church’s Ministry among Laborers, the project Church and School, Ecumenical Work and the Diaconal Services with its wings: Evangelical Family-Education, Centre for skills training, home care services, Counselling of Migrants, Railroad-Mission und others.
